# New COLLECTIONS

Brass is back but now in its ultra slim version to integrate perfectly with your walls. We transform top-quality brass sheets into smart frames in trendy **MATT** finishes: white, black, satin matt nickel, satin matt gold and soft matt patina.

Less is more once again... Our craftsmen with their years of experience, artistic eye and incredible skills have created these original matt finishes to make your **décor unique**.

The timeless beauty and ability to be perfectly matched with any colour scheme means the new **Twenty, Studio & Round** light switch collections are a "must have" for your next interior design project.

## Flex Lamp collection

REFERENCE: FDF02001-1-2

This reading lamp is like a built-in mechanism, so you can install it in a standard built-in box next to the headboard. You can move it, to direct the light when you need it. It incorporates a 2.6W direct Bi-Pin G9 LED LAMP at 230V and a color temperature of 2700°K, to create a cozy atmosphere. It also includes a matt glass to maintain a good uniformity in the object to be illuminated, creating a great light effect.

We can choose single color or combine finishes:
